Automated Tax Assignment Solutions for Payroll

Multi-Tenant Cloud Offerings with Mobile Access and Simplified Payroll Onboarding

TaxProfileFactory is a cloud-based solution that automatically determines employee tax profiles for Federal, State, Local and Territory taxes in a timely manner, removing the burden of having to research and make profile and assignment changes. It also helps minimize dreaded adjustments to filings and paychecks, helping save substantial time, effort and money, while greatly improving and streamlining overall payroll processing. The solution also provides faster, more efficient distribution and storage of payroll tax forms, while managing the return of employee election data back to the payroll system.

As a SaaS solution, TaxProfileFactory integrates with many HR/payroll systems. Employees and employers have desktop and mobile access to an intuitive and flexible web-based application. The solution requires no application maintenance for users and delivers high availability and data sharing. We take security seriously and conform to a rigid discipline for protecting sensitive data.

Fix it before it breaks!

Correct tax profile data is key
