Cutting-Edge Payroll Tax Solutions

Payroll tax configuration and onboarding, tax calculation, tax filing and garnishment solutions

Business Software, Inc. (BSI) is a leading provider of U.S. payroll tax profile, tax calculation, tax filing, W-4, Year-End, and wage attachment solutions. Leveraging over 45 years of experience, BSI offers the most comprehensive and complete solutions in the industry. BSI's commitment to our customers is founded on core principles of innovation, expertise, and timeliness. We deliver superior products and services, plus unrivaled support that together provide exceptional value for our clients. BSI takes security of our clients' data seriously and works with various solution and technology partners in this area. BSI annually undergoes a SOC 2 Type 2 audit and has a SOC 3 report available on our website.

Services and Support

BSI **Professional Services** offer integration and system configuration services that utilize a best-practice approach, along with expert advice and assistance. Professional Services clients are assigned a dedicated implementation consultant who designs a cost-effective and customized project plan to meet your organization's objectives.

BSI **Training Services** help improve staff proficiency with BSI solutions, as well as your bottom line, in a quick manner. We have training programs that pertain to application and technical training for your job-specific needs. Training programs are led by BSI instructors who understand the challenges you face and bring real-world experience to the classroom environment.

BSI **Support Services** deliver unmatched tax support and expertise, as well as extra help when you need it. We offer a comprehensive support program to access skilled help desk analysts, self-service tools, and a wealth of resources available through our web portal. Whatever your requirements, you can feel confident that BSI has the right services and Support to meet the needs of your organization.

TaxProfileFactory™

TaxProfileFactory automatically maintains employee tax profiles for Federal, State, Local and Territorial taxes, removing the burden of having to detect and make profile and assignment changes in a timely manner. The solution creates the profiles and performs tax location and assignments on demand, thereby virtually eliminating many W-2Cs and the dreaded adjustments to paychecks, tax payments, tax filings, and more, saving substantial time, effort and money, while greatly improving and streamlining overall tax processing.

Comprised of several expert tax applications, this solution provides comprehensive coverage for Federal, State, Local and Territory tax jurisdictions. TaxFactory automates payroll tax calculations for the simplest or most complex payrolls. It calculates employee withholding taxes of virtually all types, as well as employee formal reciprocal taxes. Its other extensive capabilities include employee reciprocal taxes in the absence of formal agreements, employee wages subject to taxation, and employee wage attachments. The solution also handles recipient pension taxes, recipient non-periodic distribution taxes, employer taxes of virtually all types, and much more.

ComplianceFactory™

ComplianceFactory is a powerful, technologically advanced suite of solutions that helps organizations pay tax liabilities and file regular and amended reports. Our payroll tax filing solution easily integrates with your payroll system to help you schedule, pay, reconcile and file payroll taxes on demand, including remittances for garnishment authorities.

ComplianceFactory presents users with a view of payroll data for each quarter, catching variances before filing, so adjustments can be made as necessary, all at fast processing speeds. ComplianceFactory

detects and provides notification when accelerated deposits are required, produces NACHA-standard files, and generates tax filings on demand, for Federal, State, Local and Territory tax jurisdictions. The solution also automatically creates amended returns in the authority-approved formats. ComplianceFactory will help you streamline and automate payroll tax processes, and will make tax filing easier than ever before. The solution may be configured to allow employees to print their W2s.
